Hi everyone,

There have been traffic controls put in place this week (so far afternoons and evenings?) that reduces all westbound Los Feliz traffic to one lane at Fern Dell.

The traffic controls also are not permitting any traffic exiting Fern Dell to turn left onto Los Feliz, and are instead directing all that traffic south down Western to turn on Franklin or wherever to turn left and get back onto Los Feliz.

I was told by the traffic officers that this was done because the volume of traffic exiting from the Observatory was too heavy and was backing up.

This is not acceptable. We asked at GPAB if DOT had reviewed the Mobility Plan and was part of the study, but did not get an answer. We've asked repeatedly for a southbound Stop on Fern Dell at Black Oak to no avail. I'm pretty certain that this effect on Fern Dell Dr and Los Feliz does not comply with the request for a Mitigated Negative Declaration.

I am formally requesting that the Public Review period for the Griffith Park Mobility Plan be extended in order for a proper review. And I'd like some better traffic controls put in place right now that allow traffic exiting Fern Dell to turn left.

Thanks,  
 Susan Swan

Hi Susan:

I am in tomorrow and am happy to discuss with you. I will speak to DOT, I do agree that some adjustments can be made to improve ingress and egress for residents with minimal affect on Observatory traffic.

I'll give you a call early Thursday.

Thank you,  
Joe
